

## AIRGO3001

OIL FOR AVIATION GEARBOXES AIRGO 3001 (ZFN-L-3001) , CAN 1 LT

Synthetic Automatic Transmission Fluid

Is a fully synthetic automatic transmission fluid with outstanding oxidation and friction stability. It is dyed green for easy identification. It is a DEXRON III type automatic transmission fluid intended to satisfy all DEXRON III, II E and D requirements. It helps provide a smooth shift and long life in both passenger car and heavy duty automatic transmissions. Also recommended for power steering systems where automatic transmission fluids are required.
